REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the prior art of record or the newly cited references fairly disclose or render obvious the claimed method and product comprising a steel component having a surface layer of alumina, chromia or alumina-rich or chromia-rich fully dense ceramic having silver incorporated through its thickness.

While the prior art discloses alumina ceramic having silver incorporated therethrough, it does not disclose that the layer is on a steel component.

The prior art is silent as to the method of forming the steel components with the ceramic layer having the silver through its thickness.
